

ATTENTION
EARTHWORK CONTRACTORS

Are you ready to comply with recent legislation regulating soil disturbance work within 250 feet of waterbodies that soon **will require** you to have a DEP certified individual supervising the work?

If you aren't, the Maine Nonpoint Source Training and Resource Center urges you to attend a Basic and Advanced training session in Erosion and Sediment Control Practices this year. The legislation takes effect on January 1st, 2013 and requires any contractor disturbing more than one cubic yard of soil in the shoreland zone to have the work supervised by an individual certified by DEP in Erosion Control Practices. *We anticipate that if individuals wait until 2012 to comply, we may not be able to get everyone affected by the legislation certified due to the current staffing levels.*

By attending this Basic and Advanced session you qualify to become Certified by the DEP in Erosion and Sediment Control Practices and you will have the opportunity to learn about new state of the art erosion control techniques as well as ways to save time and money on your construction projects. Besides, you will not want to miss out on the benefits provided by the program including: discounts on erosion control products, accelerated permitting, and free advertising. So get ahead of the rush and plan to attend our spring session which will be held at the Rangeley Town Office on April 15th, 2011 from 8:00 a.m. to 4:30 p.m. The program will include refreshments and a manual that is yours to keep.

To register for the program please call Rosetta Thompson at: 778-4279 or 212-6109 or e-mail her at: rosetta.thompson@franklinswcd.org

Pre-register
by sending a check with registration form

Make check payable to:
Franklin County SWCD, 107 Park St., Farmington, 04938

Before March 15th: \$35

March 15th - 31st: \$40

April 1st - 8th: \$45

Name: _____

Address: _____

Town: _____

State & Zip: _____

Phone: _____ Email: _____

We need 20 people for the class to run.

Please help get this information out to all the contractors in your town/area.

Thank you for your help
