SEPTIC SYSTEM INSTALLATION COURSE OFFERED

Farmington, Maine - The Franklin County Soil and Water Conservation District will be hosting a Basic On-Site Wastewater System Installation Course for contractors, code enforcement officers, licensed plumbing inspectors, and site evaluators. This course will be held at The Granary Brew Pub and Restaurant, 147 Pleasant St in Farmington on April 7th from 8 am to 4 pm.

Topics will include design, permitting, construction, and inspection processes contained in the Maine Subsurface Wastewater Disposal rules, CMR 241 as well as the use of erosion control devices and the Dig Safe process. Attendees who submit HHE-200 Forms for two successfully completed system installations will be granted a certification number. The details of the voluntary Certification Program for System Installers will be covered during this session.

Six and one-half training contact hours will be awarded and will apply towards recertification for L.P.I.'s and C.E.O.'s, as well as Maine Department of Human Services and Department of Environmental Protection Voluntary Certification Programs for Septic System Installers and Contractors.

The cost for this workshop is \$75 (includes training materials, lunch, and breaks). For registration information please go to Franklin County Soil and Water Conservation District web site at www.franklincswcd.org, call 778-4279, or contact the Joint Environmental Training Coordinating Committee (JETCC) at 253-8020.
